Professional Summary

SY Computer Science Engineering student at Vishwakarma University with internship and hackathon experience in Data Science, Web Development, and Software Engineering. Skilled in Python, C++, and modern web technologies, with a track record of building impactful projects and delivering insights through data. Eager to apply technical and analytical skills to create practical, innovative solutions.

Education

Bachelor of Technology in Computer Science Engineering	Expected May 2028
Vishwakarma University, Pune, Maharashtra	

Experience

AI and Data Analytics Intern	2025
AICTE – Shell India – Edunet	Virtual

- Completed a 4-week internship under the Skills4Future program focused on AI, Data Analytics and green skills.
- Worked on applying AI and analytics techniques to sustainability-related projects.

Data Science Intern	2025
Codsoft	Virtual

- Performed statistical analysis and created visualizations to extract insights.
- Worked with Python libraries for data manipulation and machine learning.

Projects

Dance Academy Management System – Client Project	[Dance Academy Management]	2026
---	--	------

- Developed a full-stack web platform for a dance academy to manage students and payments.
- Implemented secure authentication and receipt generation system.
- Built installable progressive web app (PWA) with offline caching.
- Currently deployed and actively used by the academy.
- Currently provided the non-code GitHub link which include screenshots, features, architecture etc.

EV Infrastructure Forecast Engine	[EV Planner Live]	2025
--	-----------------------------------	------

- EV infrastructure planning dashboard using geospatial analysis.
- Visualized EV demand vs charging station gaps for Indian cities.
- Tech Stack: Python, HTML, CSS, JavaScript, Leaflet.js, Chart.js, CSV Data Analysis, Git & Github

▪ Built a web app to track NEET tests, scores, accuracy, and progress over time ▪ Designed student-wise performance analytics for better exam preparation ▪ Implemented structured data storage with a clean, student-friendly interface ▪ Used API Key for Questions Generation. ▪ Tech Stack: JavaScript, Web Technologies, Database (SQL), Git, GitHub	
<i>Additional projects and contributions are available at github.com/RajV231.</i>	2024-2025

Technical Skills

▪ Programming Languages: Python, C, C++, JavaScript ▪ Web Development: HTML, CSS, JavaScript, Node.js, Next.js ▪ Backend and APIs: Django, FastAPI, RESTful API Development ▪ Data & Python Tools: NumPy, Pandas, Matplotlib, scikit-learn, streamlit etc ▪ Version Control and Tools: Git & GitHub ▪ Core Computer Science: DSA Basics, Object-Oriented Programming, Problem Solving	
---	--

Certifications and Achievements

▪ 2nd Place - University-Level Hackathon, Vishwakarma University	2025
▪ LinkedIn Learning Certified – C, Web Development, Data Science, Data Analytics	2024-25
▪ Infosys Springboard - Programming Fundamentals & Development Tools	2024
▪ Forage Virtual Experience Programs - Industry Simulations	2024

Areas of Interest

Full-Stack Development, Artificial Intelligence, Machine Learning, Data Science, Software Engineering, Emerging Technologies
